Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Applicant's Response filed March 8, 2004 is acknowledged. Claims 9-55 remain under consideration.

An Information Disclosure Statement filed March 8, 2004 is further acknowledged and has been reviewed.

In the last Office Action claims 9-55 were rejected under 35 U.S. C. 103 as being unpatentable over Katz, R.M., Pediatric Asthma, Allergy & Immunology, in view of Handley et al., U.S. Patent 5,900,421. It was asserted Katz teaches the administration of loratadine to students with seasonal allergic rhinitis who may experience decreased performance and productivity at dosages consonant with those presently claimed. Handley provides motivation to administer desloratadine in place of loratadine.

Applicant's argument is apparently directed to a difference between the patient population to which the present claims are directed and that of the reference.

All of the present claims are drawn to a "person" suffering from an allergic and/or inflammatory condition of the skin or airway passages; from seasonal and/or perennial allergic rhinitis; or, from atopic dermatitis and/or urticaria. The term "person" encompasses students, adults and the elderly. Further, the recitation "work-related and/or workplace productivity" is not limited to any particular place of employment or activity. Handley teaches the avoidance of adverse side effects such as gastrointestinal distress, sedation, constipation or diarrhea, that affect any age group.

Accordingly the rejection of record under 35 U.S.C. 103 is maintained for the reasons of record.

No claim is allowed.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication should be directed to Phyllis G.
